The Office of the University Veterinary at Virginia Tech is seeking a highly motivated and enthusiastic Animal Care and Operations Supervisor to support a growing research enterprise. The supervisor will serve in a leadership role and will be responsible and accountable for managing personnel and the daily vivarium operations and activities involved with the provision of animal husbandry, welfare, and care.

Responsibilities include:

- Managing the daily operations and space utilization of the Laboratory Animal Resources vivarium.
- Managing the responsibilities and work assignments of LAR personnel including staff training, performance management, mentoring, and professional development.
- Ensuring that the daily operations and activities of the animal facility are accomplished in accordance with federal regulations, industry standards and guidelines, institutional policies, and LAR guidance documents.
- Establishing and maintaining collaborative and productive working relationships with the assigned LAR facility veterinarian and research personnel that utilize the facility.

This is a full-time exempt salary position that includes health coverage, retirement, vacation, sick leave, and other benefits. The position is primarily located in Blacksburg, Virginia but provides back-up support for the Roanoke campus as needed.

The New River Valley is situated between the Blue Ridge and Appalachian Mountains offering a wide variety of outdoor recreational activities. The area provides a small-town atmosphere with easy access to shopping, dining, and the arts.
